ABOUT MYDAY

A happier, more active day for every resident

MyDay turns a tablet into a daily activity companion for seniors. Residents tap big, colourful pictures to play quizzes, exercise their memory, read stories and listen to music — in English, Bahasa Melayu, Tamil or Chinese.

Keeps minds active

15 trivia quizzes and 15 brain games give gentle daily exercise for memory, attention and numbers.

Sparks conversation

Local themes — hawker food, kampung days, festivals and national songs — bring back happy memories to share.

Easy for everyone

Big text, big buttons and real photos. No typing, no swiping, no accounts.

Reliable every day

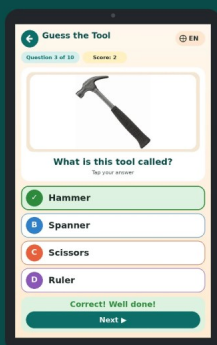

Works offline after a one-time photo download. Built not to freeze or slow down.

Who MyDay is for

- ✓ Nursing homes and care homes
- ✓ Senior activity and day care centres
- ✓ Rehabilitation and community care
- ✓ Families caring for parents at home

Inside this portfolio

Works without Wi-Fi

After a one-time photo download, all games and stories run fully offline. Only the Music corner needs the Internet.

DESIGNED FOR SENIORS

Made for older eyes, hands and memories

Every screen was designed for residents who may have weak eyesight, shaky hands or mild memory loss.

Large, clear text

Text from 20 to 70 points on warm cream backgrounds with strong contrast. An Extra-large text switch enlarges every screen.

Big touch targets

Buttons 80 to 130 dp tall with wide spacing. One tap does one thing — no swiping or long presses needed.

Real photos

Real pictures of tools, food, places and animals are easier to recognise than cartoons or icons.

Kind feedback

A gentle "Good try" with the right answer. No buzzers, no timers and no game-over screens.

Four languages

English, Bahasa Melayu, Tamil and Chinese on every screen, switched with one tap and remembered.

Read aloud

Stories can be read aloud by the tablet in all four languages, for residents with poor eyesight.

Colour-blind friendly

Colour games pair every colour with a shape, so residents with colour-blindness can play too.

Day orientation

The Home screen shows the time, day and date in large text to help residents stay oriented.

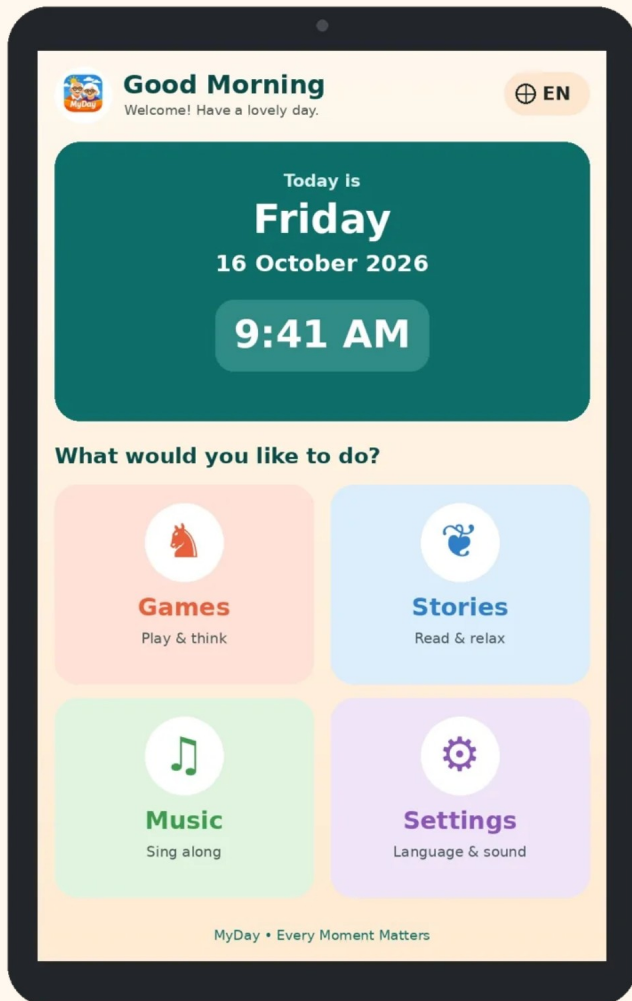

Smooth and reliable

Games and stories run fully offline. Rotating the tablet never restarts a game, and fast double-taps never open the wrong screen.

HOME SCREEN

Everything starts with one big tap

The Home screen greets residents by the time of day and shows four large, colourful tiles.

Games

Trivia Quiz and Brain Games — 30 games in total.

Stories

20 animated picture-book stories with read-aloud.

Music

Familiar songs to sing along to.

Settings

Language, text size, sound and photos.

One-tap language switch

The language button sits at the top of every screen. Games, questions, answers, stories and menus all change instantly.

Nenek Fatimah welcomes her family home with ketupat and rendang.

Mooncake Night

Grandpa Tan shares lanterns, mooncakes and old stories under the moon.

MUSIC AND SETTINGS

Sing along, and simple controls for staff

Music corner

Opens familiar songs on YouTube for singing along in groups or alone. If the tablet is offline, MyDay shows a friendly message asking staff to turn on Wi-Fi — everything else keeps working.

Language

Choose English, Bahasa Melayu, Tamil or Chinese for the whole app.

Real photos

Download about 300 real photos once on Wi-Fi. A progress bar shows how many are ready; then the app works offline.

Change a photo

Staff can long-press any quiz photo or story poster to replace it with another one.

Extra-large text

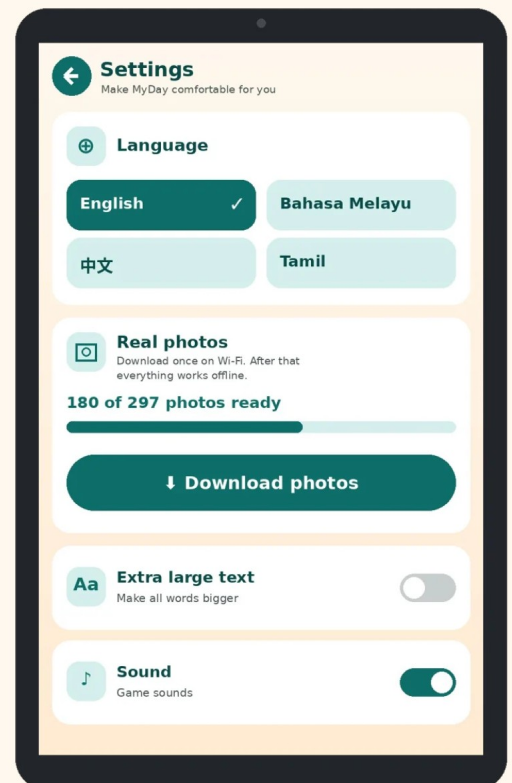

Makes every word in the app bigger.

Sound

Turn gentle game sounds on or off.

Photo credits

Lists the photographers of the free-licence photos.
